GRCSA - 2004 Champ Show Critique

AUGUST 2003

JUDGE: MRS Margaret Hean (U K)

I would like to thank the GRC of SA for inviting me to judge. Thank you also to all the people who entered especially those of you who travelled interstate to give me the opportunity to judge your dogs. David and I had a marvellous time and were "blown away" by your hospitality and kindness.

There were some beautiful dogs exhibited under me and I was thrilled to see really good specimens from both ends of the colour spectrum.

The dogs were all presented and groomed well, and with a few exceptions (a couple that had obviously found the biscuit tin !!) were shown in what I consider to be super condition.

The most predominant fault I found was lack of length in the upper arm. Most had acceptable layback of shoulder but the short upper arm meant that the dog's legs were placed under the front of the chest rather than under the withers where they should be. This also seems to be a common fault in New Zealand at the moment and one that can prove difficult to rectify once you have it in your lines.

I have tried to make my critique constructive, please remember it is just my opinion of your dog as I saw it on that day!

Yours for Goldens

Margaret Hean.

Baby Puppy Dog

1st. Boolaroo Rubein de Paris

A promising puppy. Good angulation front and rear. Pleasing head and expression. Nicely balanced and moved happily.

Minor Puppy Dog

1st. Perrecca Royston

A mid gold boy, well balanced fore and aft. Good layback of shoulder, straight front, level topline, moved freely covering the ground well.

2nd. Tiptree Tavsof Trichmond

Short coupled, nice head and expression, topline not as good as 1st.

Puppy Dog

1st. Piarki Magic Band

Cream boy of excellent type. Beautiful head and expression, well chiselled with dark eye, soft but still masculine. Deep body for age, level topline. Well presented, happy mover. Very promising.

2nd. Westrova Alpha Major

Not as mature as 1st but as 2 months younger this is understandable. Nice angulation and topline. Free moving, covered the ground well.

Junior Dog

1st. Beaucroft Intruder

Interesting to see he is the son of my BIS. A Balanced free moving pale gold dog with good layback of shoulder, nice rear angulation and lovely length of neck. Pleasing head and expression. Covered the ground well.

2nd. Baradav Desert Storm.

Mid gold boy. Very close to 1st. Much heavier head than 1st however still had soft expression. Good depth of body nice layback of shoulder and level topline. Lovely bone. Another one that covered the ground well.

3rd Tahmero Aprils Cougar

Lovely deep gold dog, short coupled, lovely layback of shoulder and good length of upper arm. Nice head and expression. Not as free moving today as 1st and 2nd.

Intermediate Dog

1st. CH Giltedge The Gambler

This cream boy took my eye as soon as he entered the ring. Lovely outline, free moving. Nice layback of shoulder and good length of upper arm. Good rear angulation and second thigh with well let down hocks. Pleasing head and expression, nice length of neck. Level topline. (Make sure dog does not stretch himself out too far as this takes away the lovely level topline that he does have) Moved with drive covering the ground well.

2nd. Naragold Merlin

Not as mature as 1st. Nice layback of sholder and good length of upper arm. Level topline. Pleasing head and expression, nicely balanced, free moving.

3rd Giltedge Souther Storm

Close relation to 1st. Heavier in head than 1st and 2nd. Short coupled, deep through body. Nice angulation but not as good upper arm as 1st and 2nd.
